After the flood that covered the whole earth, God commanded Noah and his sons to have lots of kids and fill the whole earth with people, and that's just what they began to do.

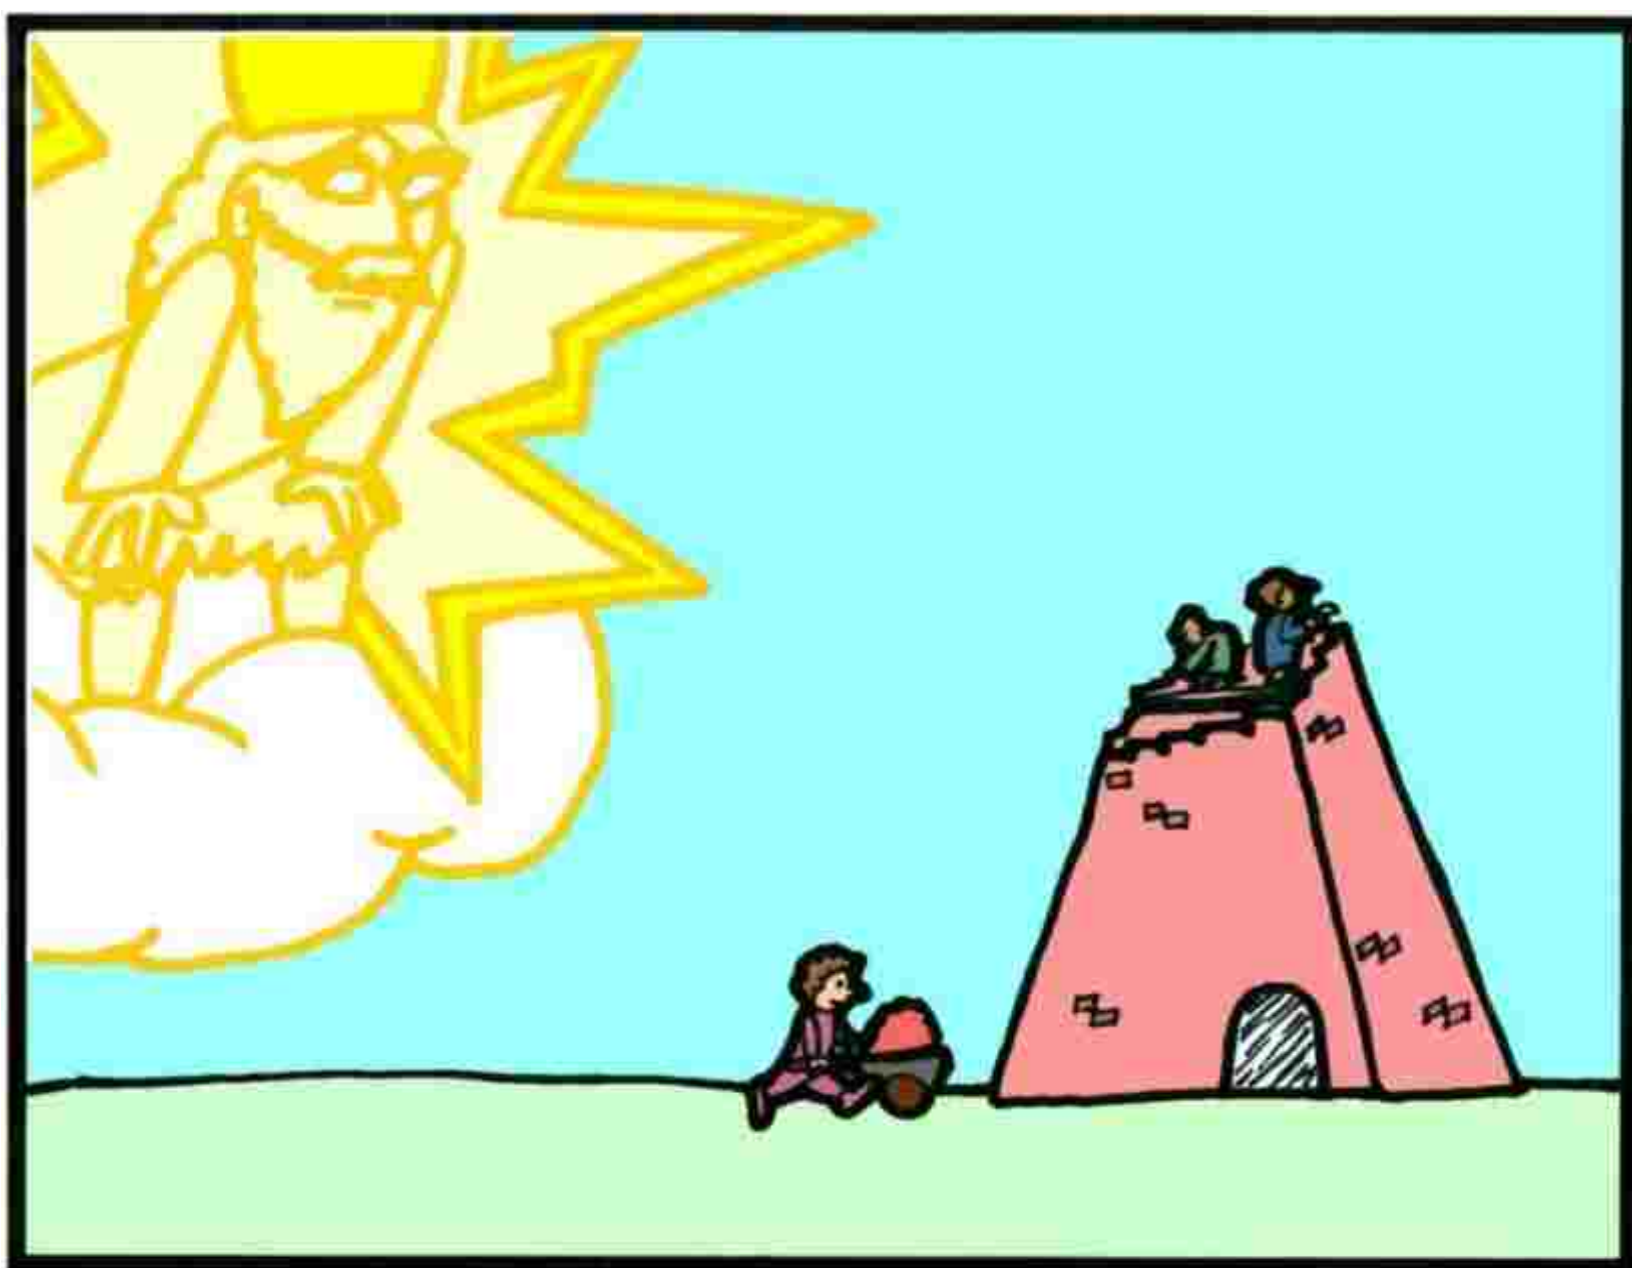

At that time everyone had one language and as the people traveled from the east it happened that they found a plain, a huge flat field, and they decided to stop and live there.

"Let's build ourselves a city and a tower that reaches up to the heavens! And let's make a name for ourselves so that we don't become scattered all over the earth," they said. Nimrod, a mighty hunter, was their leader and the city they built was the first city of his kingdom. 08-04

The Lord said, "The people are one and they all have one language and this is the beginning! Nothing they plan to do will be held back from them. Come let us confuse their language, so that they will not understand each other."

"Would you pass me a brick?" said one to another.

"Qu'est-ce que c'est?" answered his friend in a new language. So he passed him a hammer.

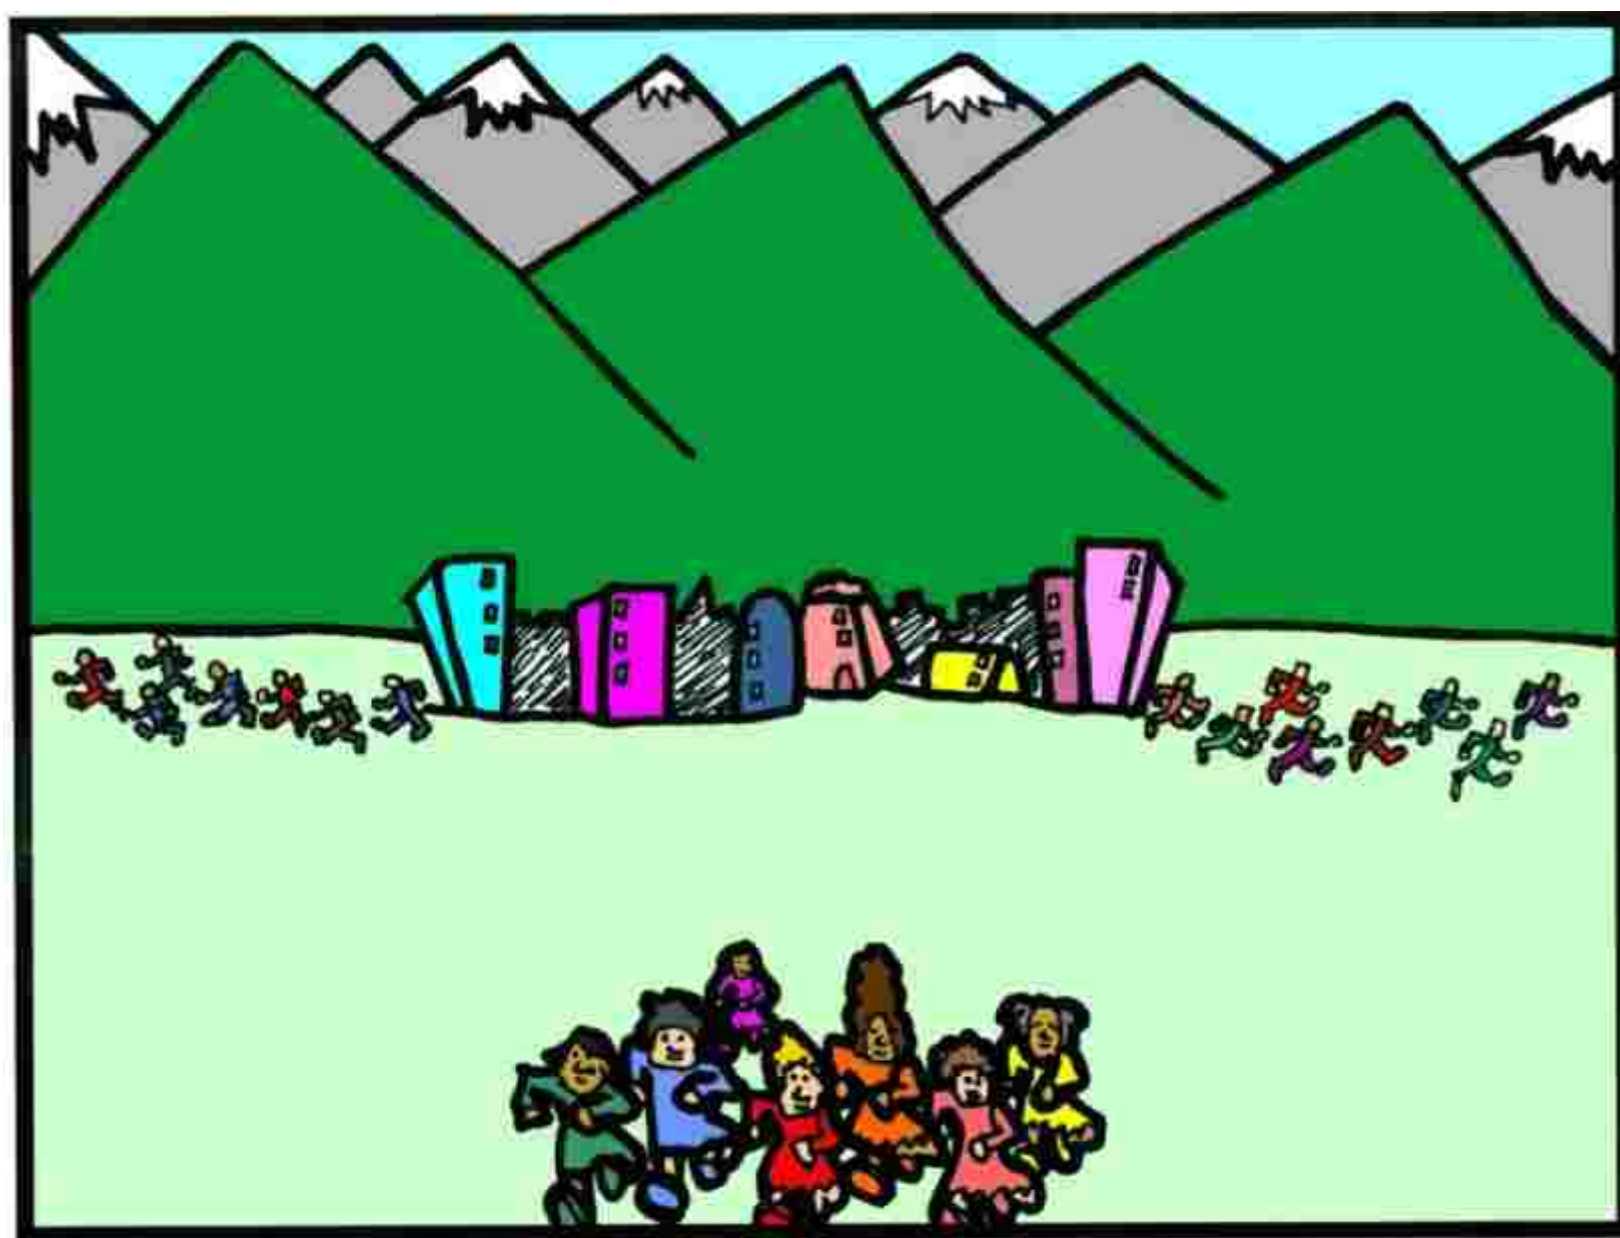

"Pass me a brick not a hammer!  
What's wrong with you anyway?  
Why are you talking funny?"  
"Qu'est-ce que c'est?" answered  
the friend.

Everywhere in the city the people were confused. No one could understand each other anymore. People were talking in all different languages!

They were so confused they said, "Forget this! We're leaving!" They stopped building the city and everyone began to travel and spread all over the world. The city was called Babel.

Lord, help me to bring attention to you and not to myself. Help me not to get involved in projects that are a waste of time. I want to do your plan for my life.
